

Exhibit to Application

Operation in Government Spectrum:

The technical parameters that we will be operating under, as provided on Form 442, comply with the existing UNII rules and are the same technical parameters that been type certified for these bands. Therefore, we will not interfere with incumbent government users. Out of an abundance of caution for the government systems in the requested bands, we are nonetheless providing a 24-hour emergency contact to turn off any transmissions should interference be detected. The contact information is: [REDACTED]
