Subject: Request for Info - File # 0026-EX-CM-2018

---

Message:

The reason for this modification is, because Fail Safe-Solutions ,LLC, has purchased 5 additional 1800 MHz BTS's and 2 additional 900 MHz BTS's. To add on the additional equipment into our network, the company needs to program the equipment in .2 MHz increments. This will facilitate a more complete and intricate training environment for the Military Units that rotate through training at Camp Gruber.

Currently the granted license operates on the following frequencies:

884.8 and 930.2 MHz for our 900 MHz BTS's

1742.4 - 1744 MHz and 1837.2 - 1839 MHz for our 1800MHz BTS's.

Fail Safe-Solutions, LLC, would like to increase the authorized frequencies to

884.8 - 886 MHz and keep the 930.2 MHz for the 900 MHz BTS's.

1742.4 - 1745 MHz and 1837.2 - 1840 MHz for the 1800 MHz BTS's.

If you would like to contact me my cell phone is 918-869-7112.
