**Re: Application for Special Temporary Authority
File Number 0392-EX-ST-2001**

To whom it may concern:

This letter is written on behalf of Galaxy Communications, L.P. with regard to its above-referenced recently filed Application for Special Temporary Authority ("STA"). As stated in the application, Galaxy wishes to operate, for and on behalf of the Onondaga County (NY) Parks department, a 5 watt AM broadcast signal on 680 kHz. The signal will provide programming that can be heard by park patrons driving through a holiday lights display, and provide event information, safety announcements, and holiday music. The proposed system would consist of a 5 watt transmitter that center feeds a long wire run along the 3 mile park route and suspended 12-inches above ground level. Galaxy is seeking the STA because this proposed short-term, seasonal, low-power drive-by AM broadcast transmission system uses non-conforming equipment which does not satisfy Section 15.201 of the rules.

Galaxy respectfully requests that this application be handled on an expedited basis. Galaxy determined that it would participate in the Onondaga County holiday program in early October. Galaxy then filed the STA application as soon as its engineers determined the most effective and efficient method for providing this service for the county. Expedited processing is requested to ensure that the proposed operation, which is seasonal in nature and attendant to the County's holiday lights display, can be used during the upcoming holiday season.
