EXHIBIT 1

General Atomics Aeronautical Systems, Inc. (GA-ASI) is in the business of the manufacture and flight test of Unmanned Aerial Vehicles (UAVs) with a broad range of scientific and military applications for the U.S. Government. GA-ASI requests these frequencies to support the production and testing of Predator UAVs for U.S. Air Force contract F33657-00-C-4040.

EXHIBIT 2

In addition to the frequencies most important to us listed on page 2 of the application, we would also like to request the frequencies shown below.
