Subject: Request for Info - File # 0292-EX-ST-2020

Message:

Upon NTIA endorsement of this request, please remove the frequency band 17.3-18.24 GHz. The IB's requirement to obtain written consent from multiple third-party entities for this frequency range is not possible given a) these entities' unresponsiveness to General Atomics queries and b) the short time remaining until General Atomics needs to use the emitters listed in this STA application.

Thank you.
