I am still not clear where you will be radiating. Location 1 is listed as a fixed transmitter at N 32 52 11, W 114 23 46. A fixed transmitter by definition has no radius. Location 2 is listed as a mobile transmitter centered at N 32 55 11, W 114 22 53 with a 30 km radius. Your response to my previous correspondence lists a location of N 32 46 10 W 118 46 37, radius 46km, in addition to the one at centered at N 32 55 11, W 114 22 53 with a 30 km radius. What is the location at N 32 46 10 W 118 46 37, radius 46km? Mind you, I don't care where the plane is flying when it is not transmitting. I just need areas of transmission described.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of March 19, 2020 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
