Subject: Request for Info - File # 0516-EX-ST-2020

---

Message:

1) N 32 25 11 W 114 23 46 is the location of the fixed emitter in restricted area R-2306E for which no radius is provided. While emitting in R-2306, the mobile emitter integrated onto the UAS will be emitting in a 30km radius from the same point - N 32 25 11 W 114 23 46.

2) Once the UAS has flown from Yuma Proving Grounds to the Warning area off the southern California coast (W-291), it will once again emit from the mobile emitter on the UAS, this time in a 46km radius defined by the centerpoint N 32 46 10 W 118 46 37.
