You must now make the application form match what your reply to my last correspondence says. Change Location 1 from Fixed/Base to Base and Mobile and add a mobile frequency entry to reflect the frequency and power of the mobile transmitter. Change the coordinates of Location 2 to the second location in your correspondence and make sure the frequency and power values at that location are accurate for the mobile transmitter.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of March 20, 2020 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
