Subject: File Num#0837-EX-CN-2019 reminder on FAA pre-coordination data request

---

Message:

Extensive prior coordination has been conducted with the Federal Aviation Administration in conjunction with filing the request for an FCC emitter license. The use of this emitter is part of a larger effort with the FAA & NASA to conduct a demonstration flight of an Unmanned Aerial System in the national airspace, and the FAA is aware of the requirement to emit in the this frequency band for a successful flight demonstration.
