This email is your AFTRCC coordination.

This coordination includes this header information, DOD Area Frequency Coordinator comments and AFTRCC comments. These messages must not be separated.

This coordination is advisory only and not binding on the FCC. Applicants are advised that this coordination does not constitute a judgment that the frequency(ies) is best suited for the applicant's purpose nor that the frequency(ies) is exclusive to the applicant. Flight Test frequencies are shared and may require scheduling with other users.

In return for AFTRCC's processing of the applicant's coordination request, the applicant agrees to release and hold harmless AFTRCC, its officers, directors, agents, members, and representatives from any claims, losses or expenses that may arise from the use of the frequency.

This coordination is not an authorization to transmit. A copy of this coordination must accompany application to the FCC.

Subject: [Non-DoD Source] AFTRCC ICN 1216-19/7741 (General Atomics XT STA/Data Link Testing-San Diego, CA)

AFTRCC concurs with and requests DoD Western AFC concurrence/coordination on the following experimental STA request.

Applicant:  
General Atomics ASI  
16868 Via Del Campo Ct.  
San Diego, CA 92127  
POC: Susan Lin (858-762-5059)

Frequency: 2380.0 MHz

Station Class: MOEA

Emission: 20M0D9W

Power: 80 watts (Peak)

Location: San Diego, CA (33-19-36 N 117-05-44 W)

MIRAD: 186 miles (300 KM)

Maximum flight altitude: 0300,MSL

Dates: 2019-03-03-20 thru 2019-03-28

AFTRCC comments: non-interference basis to Flight Test telemetry.  
Requester has stated aircraft will fly a track west over the Pacific Ocean and transmit video/data back to ground station in San Diego.

Please advise if IFDS scheduling via DoD Western Area Frequency Coordinator office required prior to operations.

Please reply via return email as to concurrence, non-concurrence, scheduling to include POC if required and any additional comments/restrictions.

Signed:

Wayne Morris
