Subject: Request for Info - STA File #0872-EX-ST-2006

Message:

The original STA for this station was extended once already. STAs are supposed to be temporary in nature. Also, NTIA has approved this in the past with the following condition: The STA power exceeds Part 15 limits by 60 dB and the requestor needs to be advised that development of this system that crosses federal government and FCC exclusive bands will be difficult to license if used in the United States and Possessions. How much longer will testing go on?

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of December 05, 2006 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
