Subject: Request for Info - STA File #0593-EX-ST-2006

Message:

1. The regular Ku-band extends from 14000-14500 MHz. You have asked for 13950-14500 MHz. 13950-14000 MHz is in the extended Ku-band which requires coordination with the federal government. If you are actually going to operate in 13950-14000 MHz, you will be required to submit the name of the contracting agency, the contract number and point of contact. If this information is classified, you will have to submit it using the following procedure:

Applications that are classified (CONFIDENTIAL OR SECRET) for National Security purposes must be filed as follows:

* File all unclassified data electronically. Submit an electronic attachment stating that the classified portion of the application has been submitted to the FCC's Security Operations Staff in accordance with the instruction below.

* Submit the remaining portion of the application to: Federal Communications Commission, Security Operations Staff, OSMD, Room 1B458, 445 12th St, SW, Washington, DC 20554.

Either state that you will not be using 13950-14000 MHz or comply with the classified procedures above.

2. What satellites are being used as points of communication?

3. Applications 0592-EX-ST-2006 and 0593-EX-ST-2006 look very similar. Is there any substantial difference, or can they be treated as one application?

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of August 22, 2006 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
