Subject: Request for Info - File #0100-EX-PL-2013

Message:

Applicant: General Dynamics C4S
File Number: 0100-EX-PL-2013
Correspondence Reference Number: 20645
Date of Original Email: 06/24/2013

Attention: Mr. Doug Young

We just recently received an email, dated 20 June 2013, from Sydney Bradfield of WSA Spectrum Engineering Services, AJW-9370, Los Angeles Support Center. They requested some information updates/confirmation for the engineering model that was entered into their system.

I will be responding to their request today as well. They also stated that after they receive final system details, they will provide their concurrence with the coordination number NG T130259.

This concurrence is based on our agreement to limit our frequency range to 1370-1390 MHz rather than from 1350 – 1390 MHz range which was submitted on the application.

I will also be updating the frequency range on the FCC application.

Thank you very much.

Regards,
Gil Estrella
