

Answer and Explanation to the “License Denied or Revoked” Question on Form 442.

License application for the location included in this Form 422 was never denied. The applicant has prior experimental license applications, e.g., 0863-EX-PL-2014, denied because FirstNet, the sole licensee for the requested spectrum, had not been consulted. Please see the attached support letter for evidence that FirstNet has been consulted and agreed that General Dynamics may now re-apply, and for General Dynamics’ stipulations in support of FirstNet’s conditions.
