

Antenna Site at Remote Area near Wittman, AZ

This antenna site is to be located on a parcel of undeveloped land in Maricopa County near the Wittman, AZ site. The parcel is located at approximately 33° 45' 25" North Latitude and 112° 35' 24" West Longitude.

GDC4S will build a 40 foot tower at that remote site and the radar will be mounted on the top of that tower. The tower will be installed on a "cell block" foundation (an above ground cement pad). The phase center of the array will be approximately 50 feet above ground level.

The site is on generally level terrain at an elevation of approximately 1660'. The tower would be approximately 20 miles from Luke AFB, 34 miles from Deer Valley Airport, 24 miles from Glendale Municipal Airport, and 40 miles from Sky Harbor Airport.
