RE: Request for access to 2GHz spectrum in the Quantico VA area

Dear Mike Thorlin:

I have reviewed your submitted request for access to the 2GHz spectrum managed by SBE in the Washington DC/Quantico area. I have circulated your request to the user community here and there are no objections to your use of the  
  
2GHz microwave **Ch 6 at 2091.5** with a 12MHz bandwidth. during the period of September 25-30, 2016.

Please ensure that you transmit at the minimum power necessary for your demonstration purposes and transmit only on US Marine Corps Base Quantico. I understand that you are the single point of contact for this effort with SBE. I have the following contact information for you, will contact you in the event any on the community experience interference and require you to shut down immediately:
