Attention Ms. Nguyen,

In order to expedite our EL request for crucial OTA testing required by our government customer, GDMS will amend this application in order to delete the following frequencies requiring additional coordination through the FAA and AFTRCC: 329, 334, 1280, 1520, and 2368 MHz.

Please let me know if there are any other concerns or questions.

Regards,

Gil O. Estrella
