Subject: Additional Information Request

Message:

Applicant: General Dynamics
File Number: 0570-EX-ST-2019
Correspondence Reference Number: 47269
Date of Original Email: 04/09/2019

Comment from FCC:

1) What is different about this 0570-EX-ST-2019 STA from the conventional license that you applied earlier 0107-EX-CN-2019?

GDMS Response: The only difference is the location where GDMS is proposing to perform this experimental testing.

Comment from FCC:

2) You need to prior coordinate with FirstNet for both of the 700 MHz frequencies in the FirstNet band.

GDMS Response: That FirstNet coordination was completed but was not authorized. FirstNet indicated it should be notched out from the application for 0107-EX-CN-2019. I have amended this most recent application, 0570-EX-ST-2019, and deleted these frequencies from the STA application.

Let me know if you still have comments or additional questions.
