Subject: Request for Info - File #0114-EX-ML-2014

Message:

Dear Mr. Young,

General Motors Research Group would like to request frequency 87.9MHz for this license modification. They have monitored this frequency in their area and there does not seem to be any usage on this frequency nor on the side bands. However, they felt that any available frequency in the 87.5-108.MHz range would work.
