Subject: 0114-EX-CR-2016 pre-coordination data request

Message:

Inquiry - GM has submitted the AFTRCC coordination documentation and confirmed the "stop buzzer" contact information. Is there remaining work for General Motors concerning the MAG 300-322 MHz coordination for the renewal to proceed, or is this to be handled through AFTRCC working with FCC/DoD? Thanks - Doug Blodgett - GM Research Corporation - doug.blodgett@gm.com or (248) 904-7428.
