Subject: 0178-EX-CM-2018 pre-coordination data request

Message:

Q. "Prior coordination with the FAA is required for the frequencies 1227.60000000 MHz requested in this application. Please upload the pre coordination document."

A. The proposed GPS repeater/antenna configuration is L1-only (not L1/L2). The frequency of interest in the question (1227.6 MHz) refers to L2. Accordingly, no pre-coordination should be required for 1227.6 MHz.

Sincerely,
Doug Blodgett

(I apologize for the late response due to trouble finding the "Confirmation Number" for the file.)
