Date: February 21, 2020

Subject: Request for Info - File # 0208-EX-ST-2020

Message:

In response to FCC staff correspondence dated February 11, 2020, Global Eagle requests that the maximum EIRP stated in its application be corrected to 318419.75 watts (57.18 dBW). Global Eagle will submit as an amendment to its application a radiation hazard analysis for the antenna reflecting these parameters.

If there are further questions, please contact me.
