

**Request for Updated Grant Period** (FCC Form 442 Experimental License Request)

Applicant: **Globalstar, Inc.**  
Form 442 File Number: **0014-EX-CN-2018**

*Mission:* **ANDESITE (Boston Univ.)**  
*ANDESITE CubeSat File:* **0244-EX-CM-2019**  
*Mission Duration 24 months:* **19-Nov-2019 to 18-Nov-2021**

The objective of the Globalstar Request is to support communications for the Boston University ANDESITE CubeSat mission. The objectives of the ANDESITE project are presented in the Experimental License Application submitted by the ANDESITE CubeSat mission, FCC File number above.

**Background:**

This request is related to the ANDESITE Experimental License Request (file number above).

The original ANDESITE CubeSat mission was demanifested from its launch vehicle, and the Globalstar experimental license grant, FCC File 0014-EX-CN-2018 was never exercised.

The ANDESITE CubeSat has been remanifested for a launch no earlier than 19-Nov-2019, with the same 24-month mission duration as originally requested.

Full details of the ANDESITE CubeSat mission are provided in the ANDESITE Experimental License request, FCC File number as indicated above.

ANDESITE will notify the FCC of the dates of actual operation, once those dates have been established.

In coordination with the Experimental License request from the ANDESITE mission (file number above), Globalstar requests that this change in FCC Grant dates be approved before 1-October 2019.
