## Video Production Events Special Temporary Authorization Application May through November, 2011

This STA request will facilitate the operation of the Goodyear Blimp for video production at various events in southern California. These include coverage of automobile racing, baseball, golf and related widely attended and televised sporting events in California. These require use of frequencies outside of the normal 2 GHz BAS/LTTS/CARS band which is necessary in the Los Angeles and Phoenix Markets, due to severe overcrowding of normal BAS bands.

The events will be as follows:
