

Frequency Coordination Exhibit  
Goodyear Tire and Rubber Company  
STA Request

Goodyear will coordinate all operations with the Society of Broadcast Engineers, Incorporated. Goodyear representatives are regular participants in SBE Frequency Coordination and HDTV production activities will be coordinated in each venue with the local SBE coordinator and via the SBE online frequency coordination system.

In addition, Goodyear will avoid interference with any Mobile Satellite Service or Radiodetermination satellite service (space-to-Earth) operations in the 2483-2500 MHz band and will not operate in proximity to satellite facilities. Operation will cease in the event of any complaint of interference, until resolved.
