Subject: Request for Info - File #0004-EX-ML-2015

Message:

According to the NTIA Manual, <http://1.usa.gov/1y9s0P6>, Section 9.8.2.16, applicant "...will provide a full explanation for the selection of the letter X unless the application is for a non-directional beacon in the bands 190-435 and 510-535 kHz." Two of your emissions contain "X" as the second character. In practice, we have found it considerably difficult to get emissions with "X" in them through the NTIA approval process, no matter what the explanation is. You can provide the explanation and we'll see where it goes, or you can change or delete these emissions. Let this office know how you would like to proceed.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of January 23, 2015 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
