

EXHIBIT C - REVISED 2.5 GHz BAND TRANSMITTER EQUIPMENT

This Exhibit amends the list of equipment to be used in connection with Google's request for an Experimental Radio Service License filed on February 23, 2016. The list of equipment to be used in the 2.5 GHz band is set forth below. Equipment in the 5.8 GHz band and in the millimeter wave bands remains unchanged.

[REDACTED] Transmitter Equipment

Equipment	[REDACTED] [REDACTED]
Number of Terminals	[REDACTED] ¹
Location	Operations not to exceed 25 km from the following geographic centerpoint: <ul style="list-style-type: none"> • 32° 59' 25" N, 106° 58' 10.9" W

Frequency Range	Low (MHz)	High (MHz)
[REDACTED]	2568.000	2590.000
[REDACTED]	2568.000	2590.000

Radio	Modulation	Emission Designator	Modulation Bandwidth	Maximum Power Out	Maximum EIRP/ERP
[REDACTED]	64QAM OFDM	20M0A2D	20 MHz	4 W	16 dBW/ 24 W
[REDACTED]	64QAM OFDM	20M0A2D	20 MHz	4 W	16 dBW/ 24 W

This revision does not increase the risk of harmful interference to other users of the 2.5 GHz band; it merely deletes one transmitter previously requested.

Google requests confidential treatment of the material underlined in this exhibit for the length of the proposed experiment and thereafter in order to protect its evolving business and technology strategies. The information Google seeks to keep confidential includes information regarding proprietary wireless applications, and therefore represents a trade secret as recognized by the Commission. Moreover, Google has limited the number of people involved in the tests/experiments, and required all third parties involved in the testing process to execute robust nondisclosure agreements. Consistent with 47 C.F.R. § 0.459(d)(l), Google requests notification if release of confidential information is requested pursuant to the Freedom of Information Act or otherwise.
