Subject: Request for Info - STA File #0829-EX-ST-2015

Message:

Please address the following comments from the FAA:

1. The FAA objects to the use of 2568-2640 MHz. The use of the band for aeronautical mobile is prohibited.
2. The FAA objects to 5775-5825 MHz and 24.2 GHz. These are unlicensed ISM bands and it is not clear if this is being used for any safety-of-life ground to air C2 communications. Is the STA being used for any safety-of-life ground to air C2 communications?

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of August 31, 2015 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
