Subject: Request for Info - File # 1032-EX-ST-2021

---

Message:

Your 10M0F1D emission is wider than the 401.6-410 MHz band you have requested. Either reduce the bandwidth or adjust the frequency request so that the 10 MHz signal fits inside it, making sure that the lower end does not move into the standard time and frequency allocation.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of June 23, 2021 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
