Subject: File #0112-EX-RR-2010 - No Addition of Frequencies on a Renewal

Message:

Frequencies cannot be added on a renewal. You will have to wait until the renewal has been processed and then file a request for modification of license on Form 442 to add frequencies. None of your requested changes, other than the decrease in power for 494-608 MHz, will be considered for this application. Also, we will not approve the frequency band 608-614 MHz on any future modification because it is a radio astronomy band.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of April 21, 2010 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
