---

Message:

Below is our response to your questions:

1. We have amended the FCC Form 442 to provide emission/bandwidth data for each transmit antenna type.
2. We have amended the FCC Form 442 to delete the downlink frequencies, which are assigned to Morelos-3, a Mexican-licensed satellite. Hughes is not the licensee of Morelos-3 and not responsible for the satellite's downlink transmissions.

Please let us know if you have any additional questions.
