Subject: RE: Coordination of CBS FSS and HTC Private5G low power radio in 3.7-3.8GHz

Wenping Ying,

Good morning. I hope this note finds you well.

After reviewing the operating parameters and location proposed by the STA, we agree that there is no reasonable concern regarding harmful interference to our Los Angeles-based satellite earth stations. Regardless, as a courtesy, we would appreciate local contact information in the unlikely event that we experience problems.

Do you require a confirmation letter or will this note suffice for your purposes?

With kind regards,

Dan Ryson
