Subject: Request for Info - File # 0191-EX-PL-2005

---

-----  
Message:

1. None of the frequencies above 1000 MHz have any output power, ERP or tolerance values. Can I assume that that the values are 50 W, 50 W and 0.005%, respectively, like all the other frequencies below 1000 MHz?
2. Since the application is requesting government frequencies, it will need to be coordinated with government users through NTIA. They will require a more detailed description of the purpose of your application.

The above changes should be made on our electronic filing site at <https://gullfoss2.fcc.gov/prod/oet/cf/els/index.cfm> by using the "Amend/Complete Application" and/or "Add Attachments" links.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of July 07, 2005 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.

DO NOT Reply to this email by using the 'Reply' button. In order for your response to be processed expeditiously, you must upload your response via the Internet at [https://gullfoss2.fcc.gov/prod/oet/index\\_els.html](https://gullfoss2.fcc.gov/prod/oet/index_els.html) by clicking on the "Submit Correspondence" hyperlink.
