Message:

Good morning.

Before we fully submit our application (provide payment), we have a few comments/questions.

1. Please remove the "confidential" marking in the application; it was marked erroneously.
2. Our radar operates in a band between 9200-10000Mhz. During operation it utilizes two distinct frequency pairs, within that band. Do we need to submit each of the frequencies that the radar could use? Or, can we submit the frequency band?
3. Prior to submitting, we will add a few additional locations to this application.

Thanks for your assistance!

Best,
Carl Comasco
