RE: Incorrect FRN used when renewing experimental license WA2XQU

On **March 23, 2004**, I renewed the experimental license for **WA2XQU**.

The Form 405 Confirmation Number: **EL14300**
Renewal File Number: **0047-EX-RR-2004**

Inadvertently, I entered the wrong FRN, 0009679572.
The correct FRN for Honeywell International, Inc. is 0004452231

We would appreciate your making that change when processing the renewal. I spoke with Doug Young on March 24, 2004 and he indicated that the only way to correct this error was to file an attachment.

The transaction was approved and Form 159 was submitted. The remittance ID number for payment is 500763 and the authorization number is 023503

Should you need any other information to make this correction, please contact me at 202-368-6552 or kanin@fr.com.

Thank you,

Donna Kanin
