Response to questions:
The FAA needs you to address the following questions:

1. What is the name of the Honeywell equipment?
Answer: Traffic Collision Alert System (TCAS)
2. Is this equipment in Aircraft or on Ground?
Answer: On the Ground in a laboratory.
3. Is the testing IAW FAA equipment certification requirement?
Answer: No, the testing is experimental only.
4. If yes, please provide name and phone number of FAA aircraft certification personnel.
