RE: Experimental Radio Services
(Part 5 of the FCC Rules)

Dear Mr. Ercolani:

Your requests for license renewal of experimental radio stations WA2XRI and WA2XRK are hereby returned to you. This office is unable to process these applications, because our tracking system has already accepted the electronic applications for renewal that you submitted for these stations. Per your letters of August 23, 2000, you were unable to edit the data you wanted to change on the renewal form because changing data on an existing license requires a separate transaction from the renewal. Modifications to existing stations require an FCC Form 442, which may be submitted either on paper or electronically. An additional \$45 processing fee is required for each modification.

If you wish to change the data on your current licenses, we recommend that you proceed with applications for modification.

Thank you,

Nancy Hey
Information Technician
Experimental Licensing Branch
