Subject: Request for Info - STA File #0443-EX-ST-2012

---

Message:

The following issues preventing further processing of the application are still present:

1. You have marked the application data itself as confidential. I informed you in a phone conversation that this is not possible because information necessary for interference mitigation (location and frequency) must be viewable to the public. Your choices here are either to agree to allow me to change the confidentiality flag to "non-confidential" or withdraw your application.
2. You have corrected your ERP to reflect units of mW instead of MW; however the output power is still reading MW. Is this a mistake?
3. Your confidentiality justification, labeled "Cover Letter" in the application, has been marked "confidential." The justification itself MUST be visible to the public. Since it appears that some confidential information has been included in the justification, you may request to have this exhibit withdrawn and then must submit a justification that is visible to the public.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of June 04, 2012 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.

DO NOT Reply to this email by using the 'Reply' button. In order for your response to be processed expeditiously, you must upload your response via the Internet at <https://apps.fcc.gov/oetcf/els/index.cfm> by clicking on the "Reply to Correspondence" hyperlink.
