Subject: Request for Info - STA File #0014-EX-ST-2010

---

Message:

Mr. Young,

Relative to correspondence with respect to reference number 10403:

Per our last correspondence, Honeywell has contacted our FAA POCs for the Miami-Dade Police Department (MDPD) and requested they contact Mr. Tim Pawlowitz regarding the objection to use of the TICK device.

Our FAA Technical Lead (Mr. Ben Walsh) has not informed us of any resolution with respect to use of the Honeywell TICK transponder (1090 MHz). We are assuming that FAA internal discussions are on-going, but we have not been informed of any action.

Since the TICK operation is continuing to hold up our request for operation in the 2390 MHz-2500 MHz band for the affected sites, we are requesting that the TICK transponder (1090 MHz) be withdrawn from this application.

Please consider our request to withdraw operation of the TICK transponder for the 1090 MHz frequency from this application (0014-EX-ST-2010).

Please advise us if there are any additional actions needed for this application.

Thank you,  
Ragon Michael
