Subject: Request for Info - STA File #0056-EX-ST-2010

Message:

You need to narrow your frequency request down to the minimum amount of spectrum necessary to accomplish your goals. For one thing, no transmissions are allowed at all in 1660.5-1668.4 MHz because it is a passive band allocated for radio astronomy.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of February 02, 2010 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
