

Attachment to File 0412-EX-PL-2008 to Withdraw Operation in Two Bands

Mr. Young,

Please accept Honeywell's request to withdraw operation in two frequency bands from this filing (0412-EX-PL-2008) as follows:

- Operation in the 310-390 MHz band,
- Operation in the 902-928 MH band.

We no longer need to support our customer with the 310-390 MHz band; and, the Microhard Systems Inc MHX920 radio that operates in the 902-928 MHz band has the appropriate FCC Part 15 label affixed. Honeywell has not modified this radio and does not intend to operate it in a manner outside what is allowed per Part 15 approvals.

Operation in the 2300-2500 MHz band is still requested per this filing. Actually, our intent is to operate in the band of 2390-2500 MHz as per a previous temporary license filing (0061-EX-ST-2009).

Please advise us if there is any clarification required.

Thank you
