Subject: Request for Info - STA File #0518-EX-ST-2015

Message:

The Torrance site has a larger radius than the previous STA and no mention of airborne operations. Do you still intend airborne operations at this site? The altitude for the Phoenix site has changed. Is this accurate? The Memphis location has no mention of airborne operations. Will there be airborne operations there, and if so, what will be the altitude of the transmissions?

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of May 11, 2015 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
