Re: Notice of Ex Parte Discussions
HNS License Sub, LLC – File No. 0137-EX-ML-2005 (Call Sign WD2XJU)

Dear Ms. Dortch:

On Thursday, December 22, 2005, upon learning that the FCC sought certain clarifications on the above referenced file, I held separate telephone conversations with Messrs. Richard Engelman of the FCC's International Bureau, and Ira Keltz of the FCC's Office of Engineering and Technology in which I clarified that only certain L-band spectrum segments are required for the equipment testing authorized under File No. 0137-EX-ML-2005.

As background, in June 2005, HNS was authorized to, and conducted, testing for new satellite transceivers that HNS manufactures using four segments of the L-band on an Inmarsat-3 satellite (see File Number 0068-EX-RR-2005). Subsequently, we requested and received OET authority to test the same equipment on the Inmarsat 4 recently launched over the Atlantic Ocean (File No. 0137-EX-ML-2005). This letter is to clarify which specific segments of the L-band will be used for the HNS equipment testing on Inmarsat-4. Those frequencies are:

1626.500 – 1627.000 MHz
1630.700 – 1631.035 MHz
1632.250 – 1632.650 MHz
1634.000 – 1634.300 MHz
1635.725 – 1635.920 MHz
1644.100 – 1644.300 MHz
1647.250 – 1648.215 MHz
1649.820 – 1650.050 MHz

Please let me know if there are any further clarifications which would be of assistance.

Sincerely,

/s/

Joslyn Read
Assistant Vice President, Regulatory

CERTIFICATE OF SERVICE

I, Joslyn Read, hereby certify that on this 23rd Day of December, 2005, I served an electronic copy of the foregoing by email upon the following:

Roderick Porter
International Bureau
Federal Communications Commission
445 12th Street, S.W.
Washington, DC 20554

Cassandra Thomas
International Bureau
Federal Communications Commission
445 12th Street, S.W.
