4. Explanation of the degree to which the information concerns a service that is subject to competition:

The confidential information concerns a service that is subject to competition.

5. Explanation of how disclosure of the information could result in substantial competitive harm:

As noted above, the Confidential Submission contains information that is confidential and governed by confidentiality clauses in a private agreement and is therefore not available for public inspection.

6. Identification of any measures taken by the submitting party to prevent unauthorized disclosure:

Humatics keeps this kind of sensitive information confidential and does not make it publicly available.

7. Identification of whether the information is available to the public and the extent of any previous disclosure of the information to third parties:

As described above, none of the information in the Confidential Submission for which Humatics seeks confidential treatment has been provided to the public.

8. Justification of the period during which the submitting party asserts that material should not be available for public disclosure:

Humatics respectfully requests that the Commission withhold the Confidential Submission from public inspection indefinitely. Humatics would not, in the normal course of business, provide this information to the public.
