

Huntington Ingalls Industries, Inc.

Huntington Ingalls Industries, Inc. (HII) files this application to request new test frequencies to replace those currently authorized by experimental license WF2XJA. The experimental authority is required to program and test equipment for National Security Cutters being constructed for the U.S. Department of Homeland Security, U.S. Coast Guard, pursuant to Government contract No. HSCG23-13-C-ABD014. The frequencies are required by the contracting authority and change with each new Hull. This request is to replace the frequencies used for NSC Hull 5, which has been completed and delivered, with those required for Hull 6, which is now under construction. The location for testing and technical operating specifications remain the same, only the frequencies change with each Hull.
