

EXHIBIT 1
FCC FORM 442
SUBMITTED BY:
IWL COMMUNICATIONS, Inc.

IWL Communications, Inc. will perform testing of the Trimble Navigation Galaxy Inmarsat-C/GPS Mobile Communication System .

The testing of this unit (as well as other data terminal equipment that will be interfaced to the Trimble Galaxy via RS-232) will be conducted in various forms of transportation, as well as testing utilizing fixed site data communication applications. Data will be retrieved and sent through dial-up link with COMSAT Land Earth Station at Southbury, Ct.
