

Technical Description

Submitted by Joel Thorsheim on behalf of Insitu
The Boeing Company
Frequency Management Services
P.O. Box 3707 MC: 2T-22
Seattle, WA 98124-2207
206-544-6066 Office

Dates of Operation:

Start Date: 1 July 2017
Stop Date: 30 June 2019

Equipment and Frequency Requirements

Command and Control Uplink from Ground Station to UAS

Frequency Band: 4400 - 4800 MHz
Emission: 230KF1D
Maximum Output Power: 104,000 Watts ERP

Mobile Command and Control Downlink from UAS to Ground Station

Frequency Band: 4400 - 4800 MHz
Emission: 230KF1D
Maximum Output Power: 10 Watts ERP

Ground Control Station and/or Ground Checkout Locations

City and State: Boardman Bombing Range, OR (Restricted Airspace R-5701)
Latitude and Longitude: 45-44-54 N 119-47-38 W
Radius of Operation: Fixed within 1 kilometers

City and State: Bingen, WA
Latitude and Longitude: 45-42-23 N 121-27-29 W
Radius of Operation: Fixed within 1 kilometer

City and State: Jackass Spring, OR
Latitude and Longitude: 45-31-19 N 120-46-58 W
Radius of Operation: Fixed within 1 kilometer

City and State: Wasco Butte, OR
Latitude and Longitude: 45-36-26 N 121-19-53 W
Radius of Operation: Fixed within 1 kilometer

Mobile UAS Location

City and State: Boardman Bombing Range, OR
Latitude and Longitude: 45-44-54 N 119-47-38 W
Radius of Operation: 50 Kilometers
Radius includes Boardman Restricted Airspace and Arlington COA
Flight Level: 5,000 ft AGL
