Re: STA Application for Intel Corporation

STA Confirmation Number: EL808000
STA File Number: 0053-EX-ST-2006

Hello,

The referenced STA application is for an Intel-only sales conference event to be held in the Anaheim Convention Center, 10 – 20 February 2006. The event is to demonstrate new WiMax equipment being developed for world-wide use. In particular, equipment operating in the 2390-2400 MHz band will be demonstrated. This equipment will demonstrate WiMax equipment operating under the WiBro system developed in Korea for Korea's wireless broadband access services.

Antennas and equipment will be used strictly indoors, between stations separated by less than 100 meters.

If you have questions or need further information, please don't hesitate to contact me.

Sincerely,

Thomas N Cokenias
Agent for Intel Corporation
