Re: STA Application for Intel Corporation

STA Confirmation Number: EL982628  
STA File Number:            0054-EX-ST-2006

Hello,

The referenced STA application is for an Intel-only sales conference event to be held in the Anaheim Convention Center, 10 – 20 February 2006. The event is to demonstrate new WiMax equipment being developed for world-wide use. In particular, equipment operating in the 3400-3500 MHz band will be demonstrated. This equipment will demonstrate WiMax equipment operating under the fixed wireless standards used in Europe and Asia. This equipment is being developed for export only.

Antennas and equipment will be used strictly indoors, between stations separated by less than 100 meters.

If you have questions or need further information, please don't hesitate to contact me.

Sincerely,

Thomas N Cokenias  
Agent for Intel Corporation
