

16 April 2021

Introduction

Intel is a world leader in computing innovation. The company designs and builds the essential technologies that serve as the foundation for the world's computing devices. Intel also offers a portfolio of wireless network communications solutions to connect a broad range of devices. Hardware and software products by Intel and its subsidiaries power the majority of the world's data centers, connecting hundreds of millions of consumers, corporate and government IT systems. Intel technologies are also inside intelligent systems, such as automobiles, automated factories and medical devices.

Testing to be Performed

Intel's research and development teams have been advancing new radio standards and technologies for the next generations of wireless devices. An Experimental License is requested for testing and demonstrations.

Locations:

Intel Santa Clara

2200 Mission College Blvd

Santa Clara, CA 95054

Centered around: 37°23' 10" N, 121°57' 53" W, radius of 800 meters.

Intel Jones Farm

2111 NE 25th Avenue,

Hillsboro, OR 97124

Centered around: 45°32'33" N, 122°58'00" W, radius of 800 meters

Stop buzzer contact: stopbuzzer@intel.com

John Hammond
